

Release Notes

Version 3.0.1 - Feb 2019

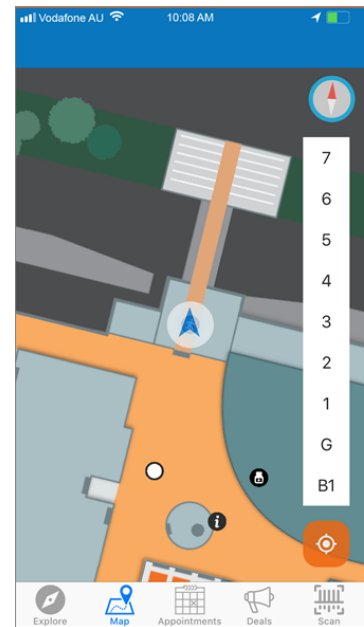

We thought you might be interested in the latest PowerNav developments. Please stay tuned for new enhancements coming soon.

Features: Map tab, central directory, smoother maps

Map Tab

Have you lost your bearings - not sure where you are? Well, now it's easy to find your exact location with PowerNav.

Just open the app and go to the **Map tab**. It will pinpoint your location and have you back on track in no time!

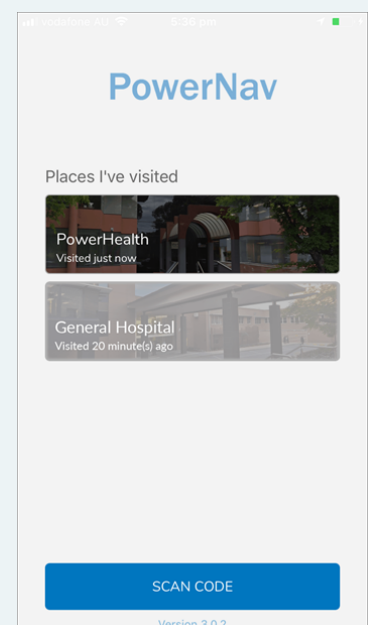

Central Directory

Do you want to prepare for your hospital journey with more information about a clinic or location within a hospital? Or do you need to contact your clinic to make changes or reschedule your appointment?

PowerNav makes this easy for you by providing a **central directory** for all locations within the PowerNav enabled facility.

Simply **scan your barcode** or open the app and **choose your facility from home**. You'll have access to the information you need in no time at all.

Smoother maps

We've made improvements to the navigation screen so that it renders more smoothly while you're walking.

Now it's even easier for you to follow the path to your destination.
